🧠 SKILLS

Programming ● ● ● ● ●
Python, Java, JavaScript, HTML, CSS

Web Development ● ● ● ● ●
React, Figma, Bootstrap

Version Control ● ● ● ● ●
Git, GitHub

Problem Solving & Teamwork ● ● ● ● ●

🔑 INTERESTS

Clubs and Societies
Leo Club, Aeronautical Club, Unique Talents Club

Sports
Swimming, Squash

Hobbies
Reading, Playing Instruments (Guitar, Piano, Recorder, Violin), Gaming

🎓 EDUCATION

BSc (Hons) Software Engineering
Informatics Institute of Technology
09/2024 – present | Colombo, Sri Lanka

School Education
D. S. Senanayaka College
2009 – 2023 | Colombo, Sri Lanka
[A/Ls] in Physical Science (2022)
[O/Ls] (2019)

📁 PROJECTS

"Life on Land" Web Development Project
02/2025 – present
Developed the website template, global CSS, and navigation structure. Designed and implemented multiple pages, ensuring accessibility and responsiveness.

"Traffic Monitoring System" Python Project
12/2024 – 01/2025
Built a traffic monitoring system for a junction with two crossroads by only using python and generated a graph using graphics.py

"Devils Daisy Death Range" Marketing Project
10/2024 – 11/2024
My team and I did a project where we had to market a product made with a deadly flower called killer jasmine

📜 CERTIFICATES

"Trainee - Full stack Developer" Course
Hosted by The University of Moratuwa. I completed multiple learning modules under this course

System Administration
Did a basic system administration course hosted by ApePanthiya.lk

Aviation Fundamentals Course
Hosted by the Sri Lanka Air Force Museum.
