👤 PROFILE

I am an undergraduate software engineering student at Informatics Institute of Technology and I am passionate about building user friendly technology and to make an impact in the global aviation industry.

🧠 SKILLS

Technical Skills

Programming: Python, Java, JavaScript, HTML, CSS, PHP, SQL

Tools & Technologies: Git, GitHub

Soft Skills

Punctuality, Teamwork, Problem Solving

🌐 LANGUAGES

English, Sinhala

🔑 INTERESTS

Clubs and Societies

Leo Club of IIT (Assistant Project Manager), Millennium Gavel Club (Vice-President Membership), Unique Talents Club (Treasurer), Science Society

Sports

Swimming, Squash

Hobbies

Reading, Music (Lead Guitarist in a band, Piano, Recorder), Caring for pets, Gaming

🎓 EDUCATION

BEng (Hons) Software Engineering

Informatics Institute of Technology

09/2024 – Present | Colombo, Sri Lanka

D. S. Senanayaka College

2009 – 2023 | Colombo, Sri Lanka

[A/Ls] in Physical Science (2022)

[O/Ls] (2019)

📁 PROJECTS

"Aqua X" Smart Aquarium Monitoring System

09/2025 – 03/2026

This was a team project and I took part in the documentation of the system and the design and development of the frontend of the mobile app and the marketing website. I also handled the integration of the frontend and the backend with a raspberry pi module 3B+

"Personal Portfolio" Web Development Project

08/2025 – 08/2025

Created a portfolio from scratch using HTML, CSS and JavaScript

"Life on Land" Web Development Project

02/2025 – 04/2025

Developed the website template, global CSS, and navigation structure.

Designed and implemented multiple pages, ensuring accessibility and responsiveness.

"Traffic Monitoring System" Python Project

12/2024 – 01/2025

Built a traffic monitoring system for a junction with two crossroads by only using python and generated a graph using graphics.py

"Devils Daisy Death Range" Marketing Project

10/2024 – 11/2024

My team and I did a project where we had to market a product made with a deadly flower called killer jasmine

CERTIFICATES

JavaScript Essential Training - 2025
Via LinkedIn

Trainee - Full stack Developer (UOM) - 2024
Hosted by The University of Moratuwa. I completed multiple learning modules under this course

System Administration - 2022
Did a basic system administration course hosted by ApePanthiya.lk

MODULES

2nd Year
Informatics Institute of Technology
09/2025 – 04/2026

- Software Development Group Project
- Object-Oriented Programming
- Algorithms: Theory, Design and Implementation
- Database Systems
- Software Engineering Principles and Practice
- Server-side Web Development

1st Year
Informatics Institute of Technology
09/2024 – 04/2025

- Computer Systems Fundamentals
- Trends in Computer Science
- Software Development I & II
- Web Design and Development
- Mathematics for Computing
